Create a
Dragonfly

Maple tree seeds, or "helicopters", are a common sight in the fall. When they have hit the ground, you can use them to create a simple craft.

Look for fallen maple tree seeds that have dried out. Be sure to use them while they are in nature. Attach a small magnet to the dragonfly for a fun activity.

Materials needed

- Glue
- 4 maple tree seeds
- 1 small twig
- Acrylic paint
- Googly eyes
- Glitter glue (optional)
- Magnet (optional)

Directions for assembly

- 1 Paint the twigs
- 2 Glue on googly eyes and seeds for wings
- 3 Add more acrylic paint (optional)
- 4 Attach a magnet to the dragonfly

Bag includes: fidget toys, noise canceling headphones and a take-home activity page.
